

Helmholtz Retreat 2021

Landgoed Hotel Avegoor, Ellecom

Monday	30/08/2021	People	Talk titles
12:00	Arrivals begin, lunch available		
13:30	Introduction by Leon Kenemans		
13:45	Symposium 1. Host:	Leendert van Maanen	
	Talks:	Manja Engel	Perceptual and attitudinal influences on tactile misjudgement in anorexia nervosa
		Evi Hendrikx	Derivation of visual timing-tuned neural responses from early visual stimulus representations
		Martijn van Ackooij	Tuned responses to event timing and auditory frequency in auditory cortices
	Introductions:	Kees Jan van der Boom	
		Josje Kal	
		Eline Kruithof	
		Elze Wolfs	
		Fleur Bongaerts	
15:30	Check-in time		
16:00	Keynote lecture	Floris Klumpers	My stay in science after my Phd @ Helmholtz - The good, the bad and the ugly
17:00	Borrel		
18:00	Dinner		

Tuesday	31/08/2021	People	Talk titles
07:00	Breakfast for overnight guests		
08:45	Coffee and arrival for day guests		
09:15	Symposium 2. Host:	Christoph Strauch	
	Talks:	Zsafia Bélteki	The expressive and receptive vocabulary development of infants with an elevated likelihood of autism diagnosis: A systematic review and meta-analysis
		Gijs Holleman	Gaze and speech in parent-child interactions: The role of conflict and cooperation
		Yentl de Kloe	Eye trackers: better specs, better science?
		Niilo Valtakari	A field test of appearance-based gaze estimation in psychology
	Introductions:	Eileen Bousché	
		Jeffrey Harris	
10:30	Coffee break		
11:15	Symposium 3. Host:	Ben Harvey	
	Talks:	Anne Marieke Doornweerd	Female sex hormones, oral contraceptives and emotion
		Caroline Kwee	Cannabidiol for treating anxiety: therapeutic dose range and clinical trial results
		Nina van Mastrigt	Exploration in reward-based motor learning
		Anne Reuten	Measuring and mitigating motion sickness in autonomous vehicles
		Marinke Hokken	Visual selective attention disorders in children - an eyetracking-based study
12:30	Lunch		
13:45	Symposium 4. Host:	Teuni ten Brink	
	Talks:	Brendan Portengen	Effects of global and local luminance and color contrast on pupil responses
		Sanne Böing	Novel neuropsychological assessment of visual working memory
		Alex Hoogerbrugge	Seeing the Forrest through the trees: Random forests predict heart rate based on eye movement features in a naturalistic viewing task
		Andre Sahakian	Probing visual working memory load during natural behaviour
		Sam Chota	Is perception discrete or continuous? The causal role of alpha oscillations as visual sampling mechanism.
15:00	Free time		
17:30	Borrel		
18:30	Dinner		

Wednesday 01/09/2021

07:00 Breakfast for overnight guests

08:45 Coffee and arrival for day guests

09:15 Workshop: Open science in practice

10:15 Group 1: Sharing your data Group 2: Sharing your code

11:00 Coffee break

11:15 Group 1: Sharing your data Group 2: Sharing your code

11:45 Setting goals for your project

12:30 Lunch

13:30 End
